Work Experience

Web developer

Internpe

22 April 2024 to 19 May 2024

(1month)

- I worked on a live project, which taught me about scale and its impact on technology choices and system architecture
- I learned to navigate and debug a large codebase, understanding the significance of maintainable code
- I also improved my teamwork, communication, and time management skills

UI/UX & Front-end Developer

I have done over 10 freelance /Part-time job and have strong skills in UI/UX design and front-end development. My experience includes working on various projects where I have designed user-friendly interfaces and developed responsive websites. I am proficient in using tools like Figma, Sketch, and Adobe XD for design, and HTML, CSS, and JavaScript for development. I am passionate about creating seamless user experiences and am committed to delivering high-quality work.

UI/UX & Website Developer

We are a team of five friends who started our own company. I work as a UI/UX designer and web developer in our startup. My role involves creating user-friendly designs and developing responsive websites that meet our clients' needs.
